Frontend Engineer

Highly motivated software engineer (Frontend) with more than 4 years of work experience in Edtech, Ecommerce, Fintech, and even government bodies. In my professional practice in software development, I have focused on innovation, self-improvement, and delivering valuable software that can enhance the achievement of organizational goals. While I have a solid grip on frontend development, I have also started enhancing my skills by learning Javascript for backend development with Node.js, with a good basic knowledge of different programming languages and frameworks, I am well-equipped to keep creating values for innovative and progressive teams.

WORK EXPERIENCE

Inosuft Technologies • Ogbomoso, Nigeria **09/2022 - Present**
Frontend Developer

- Led the effort in frontend implementation in some in-house multiple enterprise-level microservice applications in the Fintech and EdTech space using the latest technologies of Reactjs, Typescript, ContextAPI, and Bootstrap.
- Designed and implemented scalable applications and integrated with APIs built using the microservices architecture using Nodejs.
- Worked as the main frontend engineer in the implementation of the learning platform and admin portal of Concreap.
- Worked as the main frontend engineer in the implementation of vacepay website, admin and corporate portals.
- Worked as the main frontend engineer in the implementation of Terraswitch website, admin, and corporate portals
- collaborated with UI/UX designers and backend engineers to implement and integrate frontend applications for both in-house and client based projects.
- Continuously Implementing new features as required per project.

Cephas ICT HUB • Ogbomoso, Nigeria **07/2020 - 05/2024**
Frontend Developer, Instructor

- Worked as lead frontend engineer on SDG Grants portal - a portal that helped in the collection and screening of hundreds of applications from Lagos state residents for a grant worth ₦255 million for the funding of 51 projects in the state.
- Worked as the main frontend engineer in the implementation of Cebiz - a payroll platform for organization (still in development).
- Facilitated over 1200 hours of web development classes both online and physical classes.

SKILLS

Bitbucket, Bootstrap, ContextAPI, CSS3, ExpressJs, Frontend, Git, Github, Heroku, HTML5, JavaScript, JIRA, Machine Learning, MongoDB, NodeJs, Npm, Postman, Railway, React, React-query, Redux, Swagger, TailwindCSS, Tanstack query, TypeScript, Vercel, I enjoy learning during free times, I enjoy listening to music

EDUCATION

Bachelor of Technology in Pure and Applied Mathematics

Ladoke Akintola University of Technology
Ogbomoso, Oyo

- Trained 200+ students on web development.
